### **ERP Team Lead | Digital Transformation & Enterprise Systems**

ERP Functional Consultant with 7+ years of experience leading ERP strategy, implementations, and post-go-live optimization across manufacturing, automotive, and port operations. Certified IFS Cloud ERP Consultant, with a proven record of 7+ successful end-to-end implementations globally. Skilled in team leadership, cross-functional collaboration, ERP lifecycle management, and system integrations. Adept at bridging the gap between business needs and system capability to drive enterprise-wide efficiency and growth.

### **Core Competencies**

- ERP Leadership & Strategy
- Project Management & Governance
- Full Lifecycle ERP Implementation
- Cross-Functional Team Leadership
- Business Process Optimization
- System Upgrades & Integrations
- Integration with External Interfaces & Third-Party Apps
- REST APIs, JSON, XML Data Exchange
- SQL, PL/SQL, Crystal Reports, SSRS
- Power BI, IFS Lobbies & Dashboards
- API / EDI Integrations
- ERP in Manufacturing & Ports/Terminals

## Professional Experience

### IFS Functional Consultant -Project Manager | Envecon Global

Dubai, UAE | Mar 2023 – Present

- Led 4 global ERP implementation projects in Ports & Terminals (Lebanon, Angola, UAE) and Manufacturing (Saudi Arabia).
- Defined project scope, milestones, and resource allocation, ensuring on-time and within-budget delivery.
- Partnered with client leadership to align ERP with finance, supply chain, manufacturing, service, and HCM processes.
- Designed and deployed dashboards, lobbies, and reports, empowering executives with real-time insights.
- Directed cross-functional ERP workshops, ensuring system adoption and user empowerment.
- Integrated ERP with external applications (HRMS, BI, and Finance tools) using REST APIs, JSON, and XML, ensuring seamless data flow and system stability.
- Facilitated vendor coordination and risk management activities during project execution.
- **Modules:** HCM & Payroll, Procurement, Manufacturing, Quality Management, and Service & Maintenance.
- **Integrations:** Spearheaded ERP-3rd party integrations for payroll, banking, and tax systems using APIs & XML interfaces.

### Manager Consulting – ERP | Millat Consulting Services (Subsidiary of Millat Tractors Ltd.)

Lahore, Pakistan | Jan 2021 – Mar 2023

- Led ERP consulting & project management initiatives across Pakistan, Dubai, and Bangladesh.
- Ensured alignment of ERP systems with corporate strategy, taxation, and compliance frameworks.
- Directed end-to-end project execution, managing scope, timelines, and stakeholder communication.
- Built and mentored a consulting team to deliver consistent ERP support & optimization services.
- **Modules:** HCM & Payroll, Procurement, Manufacturing, Quality Management, and Service & Maintenance.

- **Integrations:** Spearheaded ERP-3rd party integrations for payroll, banking, and tax systems using APIs & XML interfaces.

### **Deputy Manager Consulting – ERP | Millat Consulting Services**

Lahore, Pakistan | Jan 2014 – Dec 2020

- Spearheaded 4 ERP implementations (Millat Tractors, Millat Equipment, Millat Industrial Products, Hyundai Motors Pakistan).
- Transformed business processes across manufacturing, supply chain, HCM, payroll, and service management.
- Developed customized BI solutions, lobbies, and dashboards for management decision-making.
- Provided long-term ERP support & training to ensure sustainability and adoption.
- Implemented integrations with external payroll, tax, and HR systems using JSON/XML-based APIs.
- **Modules:** HCM & Payroll, Procurement, Manufacturing, Quality Management, and Service & Maintenance.

### **Assistant Manager IT | Millat Tractors Ltd.**

Lahore, Pakistan | Aug 2008 – Dec 2013

- Developed enterprise reports and BI dashboards using PL/SQL, Crystal Reports, SSRS, and IFS ERP tools.
- Assisted in ERP pre-studies, requirement analysis, and end-user training.
- Supported ERP rollout across finance, supply chain, and manufacturing divisions.
- Delivered interfaces for data synchronization between ERP and 3rd party apps.

### **Software Engineer – Java | AED Information Systems**

Lahore, Pakistan | 2007 – 2008

- Developed enterprise web applications for real estate clients in Dubai.
- Worked on J2EE, Spring, Hibernate, JSP, and JSF frameworks.
- Built data exchange modules using XML and web services for client integrations.

## **Education**

MSc.IT – Computer Science

Punjab University College of Information Technology (PUCIT), Lahore, Pakistan

## **Certifications**

- Certified IFS Cloud ERP Functional Consultant (HCM, Payroll)
- PMP Certification (In Progress)

## **Leadership Highlights**

- Led 7+ successful ERP implementations across manufacturing & ports/terminals sectors.
- Managed ERP teams delivering end-to-end lifecycle support across multi-country clients.
- Designed BI dashboards and ERP optimization frameworks, improving decision-making speed by 40%.
- Delivered ERP–third party integrations (payroll, banking, tax, HR, and BI) using REST APIs, JSON, and XML.
- Experience collaborating with CXOs, department heads, and external vendors to align ERP with corporate strategy.

## **Technical Expertise**
